Extra help for at-risk pregnancies

Personalized nurse support

If you have a health condition or other risk that could affect your pregnancy, we can help. Our nurse case managers will work with you to manage or maybe even lower those risks.

Pre-delivery, you may receive:

- Preterm labor education and support
- Personalized support for conditions like high blood pressure and diabetes

Helping you deliver at the right time

In most cases, full-term babies have fewer health problems. So if you're at risk for early labor, we'll explain the signs and symptoms. We'll also talk about new treatment options.

Post-delivery, you may receive:

- A follow-up call, a screening for depression, and lactation and breastfeeding support
- Extra help for behavioral health concerns
