Health Savings Brokerage Account (HSBA) is a self-directed brokerage account designed to complement your HSA while providing greater access to thousands of additional investment choices.

**Why should I open an HSBA?**  
Your HSBA, offered through Charles Schwab, provides knowledgeable investors with more flexibility, increased diversification, and a greater role in managing your investment portfolio.

**How does an HSBA differ from a typical brokerage account?**  
An HSBA is different from a typical retail brokerage account because it is part of your HSA. Since your HSBA assets are part of an HSA, the interest, or other earnings on these assets in the account are tax free if the disbursed funds are used for authorized medical expenses.

To change the method of transfer, select your preferred transfer type from the drop-down menu below. The percent to percent transfer option is recommended if you wish to transfer more than 90% of the balance out of the fund.

Trades initiated before the market closes (3:00 p.m. CST) will be processed the same business day. Trades initiated after the market closes are processed at the close of the next business day.
