

Welcome to Employee Health

Pre-Employment Occupational Health Screening UVA Medical Center

As a condition of employment, all team members in the UVA Health System shall be required to undergo such screenings, vaccinations, or tests listed below and described in policy OCH-002.

To allow for a comprehensive and quick visit, **please bring with you:**

- * Any historical medical documentation (listed below)
- * Valid, government-issued photo ID
- * License plate number (for parking validation)

We cannot complete your screening without this documentation.

Requested historical medical documentation:

- * Measles, Mumps, and Rubella (MMR) vaccine x 2 or laboratory confirmation of immunity
- * Varicella vaccine x 2 or laboratory confirmation of immunity
- * Tetanus, Diphtheria, and Pertussis (Tdap) vaccine
- * Influenza (Flu) vaccine (in flu season)
- * If your job role requires direct patient contact:
 1. Hepatitis B vaccine series + immunity status (antibody test)
 - i. If antibody test is low, disease status (antigen test) is required
- * Tuberculosis (TB) documentation and screening:
 - * Employee Health will accept either a 2-step PPD skin test (1st PPD within last 12 months, 2nd PPD within last 6 months) or a Quantiferon Gold blood test within the last 12 months. In case of a previous reactive TB skin or blood test, documentation of the reactive test and a chest x-ray within 6 months of hire is required.

If you are missing any of the above-mentioned historical documentation, we will address any discrepancies during your Pre-Employment Occupational Health Screening.

If you intend to apply for a medical or religious exemption to any vaccine(s), please [submit your application here](#).

Respiratory Fit Testing (RFT) may be required for your role, depending on location and job position. This will be performed at a subsequent appointment. Please ask the Employee Health team how to schedule this service.

Children requiring supervision are not permitted in clinic areas; please plan your visit accordingly.

To schedule your Employee Health assessment, please call (434) 924-2013. We advise scheduling this appointment as early as possible, at least ten days prior to orientation.
