

CONTINUITY PLANNING

Continuity Planning is a two-pronged approach for managers to assess

TEAM MEMBERS

&

POSITIONS

By planning rather than reacting to staffing challenges, managers can have:

Team members developed for future roles

Team members engaged about long-term career goals

Better continuity of service

Confident peace of mind to handle unexpected changes

TOOLS

TEAM MEMBERS

An assessment tool that evaluates a team member's current performance and potential future readiness.

A planning tool to assist team members in defining and reaching short-term and long-term career goals.

POSITIONS

A planning tool to identify key competencies, skill gaps, potential successors, and planning tools for external recruiting for critical positions.

A 10-question assessment tool to identify vital, significant, and fundamental succession planning needs for critical roles.
